Editorial

As we embark on another 365-day journey, RHK is truly grateful to share another year with our readers, fans, models, photographers, and everyone else who continues to support us.

2020 was filled with plenty of memories ... some good, some bad ... but memories nonetheless! The main takeaway from 2020, at least for me personally, was to count my blessings. Be grateful. Savor the moment. Breathe. Look for the positives in every situation. And hopefully I was able to convey that message to everyone I had an opportunity to work with. Even though we faced small obstacles and challenges, we had (and have) so much to be thankful for ... and a better day is always on the horizon!

With all of the challenges we faced in 2020, we were still able to continue our operations without interruption ... and had another great year! We released exclusive content every month, with over 25 all-new issues. We worked with new featured models, while some of our previously featured models returned with even hotter content!

All in all ... last year was a huge success!

In 2021, we hope to get back on our promo-tours, which give us the opportunity to meet and discover the world's hottest models. And, as always, our goal is to deliver the best magazines and products we possibly can ... our readers and fans deserve nothing but the best!

**Again, thank you for everything ...
I greatly appreciate YOU!**

Q&A

How long have you been modeling?

I have been modeling on and off since I was about 8 years old. It has always been something I enjoy doing.

Who or what inspired you to start modeling?

I've always liked seeing myself transform. Modeling is an escape for me, I started modeling to improve my self-image. I started modeling (again) at 23 when I started getting more tattoos and saw magazines like Inked, Urban Ink, and Suicide girls.

FM

Sexy and edgy.

What is your most memorable moment as a model?
Getting put on the Penthouse IG feed, and being apart of Blasted Ink.

What are your modeling goals, short-term and long-term?
Short-term, I am planning to do a little rebranding in a few months. Long-term, I would like to create or be apart of a national brand.

What is your sexiest feature?
My eyes ... I feel like they tell a story, give direction, and show emotion all on their own.

How to Take a Stress-Free Holiday Road Trip

Holiday travel can be stressful, but it should be fun, too. Advance planning and proper car care can take much of the stress out of a holiday road trip and leaving you free to enjoy the ride.

Checklists for each aspect of the trip will help ensure that nothing important is left behind, and that you are safe and prepared in case of an emergency. When it's time for a holiday road trip, keep these tips in mind for smooth travels:

Check your ride: A complete car check before a road trip should include making sure the fluid levels are sufficient. Make sure wiper blades and the wiper mechanism itself is working properly. Check your lights, including brights, to be sure they are functional. And, last but not least, don't forget your tires. Tires are the connection between your car and the road, so be sure to examine the tread for signs of excess wear.

"Traction and tread are inextricably linked. The grooves in your tires are critical in helping to channel water away to allow the tire to grip the road," says Sarah Robinson, Michelin safety expert. "Making sure you're driving on tires with proper tread can be the difference between avoiding an accident and becoming part of it."

Be prepared: Equip your car with an emergency kit, including water, flashlight, blanket, jumper cables, extra windshield wiper fluid, cell phone charger, and emergency phone numbers for roadside assistance, as well as a contact person at your destination.

Map your route: Check your route in advance and, if possible, plan your trip for times with less traffic. If you are planning to use a map feature on your phone, use the voice component; if you don't have that, consult a paper map and get a sense of the route before you get behind the wheel.

Safety first: That means the driver focuses on driving. If you are the driver and need to check your phone, send a message, have a snack, or tend to a child or pet in the back seat, wait for a rest stop, or if necessary, pull over to the side of the road.

Watch the weather: Especially during winter holidays, knowing the weather in advance can help you plan to avoid a storm. If conditions are truly dangerous, the smart move is to postpone your trip until the weather improves.

Born and raised in Milton, Ontario where I currently reside, I'm a girl of many talents and passions. Certified as a personal trainer, I have taken some time away from training clients and have been focusing more on my growing my career as a model and reaching my goals as a professional fitness competitor and Pro Bikini Model. Recently happily engaged, and a very proud mother to a beautiful boy of 5 years of age, my biggest love and passion in life will always be my family.

Q&A

How long have you been modeling?

I have been actively modeling for 2 and a half years. My first professional shoot was a fitness shoot in September of 2018, just before I went on to win my pro card as a bikini athlete the following month.

How would you describe your modeling style?

I would have to say I'm still trying to figure that out, as I recently got into modeling more full time, my styles have broadened quite a bit. I love glamor and boudoir, however I love being artistic with editorial fashion shoots as well.

What is your most memorable moment as a model?

My most memorable moment would have to be my first time landing the cover of a magazine. Which you can find on RHK Magazine in December of 2020.

What are your modeling goals, short-term and long-term?

My short-term modeling goals are to simply continue to grow as a new face in the industry and find my calling as a model and influencer. My long-term goals would be to eventually work alongside some of my biggest inspirations and fellow mentors in the industry. I want to inspire other women to go after their goals no matter how big or small and to be self confident in their journey.

What is your sexiest feature?

This is tricky [laughs]. Honestly, I have always thought my personality is what is most attractive, although my fiancé would say it was my smile that caught his attention first.

Who or what inspired you to start modeling?

Myself, family and friends.

My sexiest feature?
My legs!

What is your most memorable moment as a model?

Being asked by ModelsMania Magazine to be on the cover of their December 2019 Christmas Cover. This was my first cover one month into modeling. Then shortly after that, being hired as their first ever Brand Ambassador.

What are your modeling goals, short-term and long-term?

Short-term goals for my modeling career would be to continue having fun doing what I live and continue to be featured in every opportunity I am offered. Getting my modeling portfolio and style out into the public eye is very important to me.

Long-term Goals for my career, I would like it to be a secondary career to Nursing for me for the next 5 years, or longer hopefully, and eventually be featured on more than 10 different covers for different Magazines. But so far, a lot of goals that I didn't even know I had have been coming true, just in the last 26 months.

I am just a small-town girl from Central Maine. I love hanging out with friends and family, being a social butterfly, enjoying my puppy, and shopping or being outdoors. I love my fast paced, busy life! I've been modeling for over 3 years now and my interest in this industry continues to grow. It's really fun to get all done up and look at all your pictures at the end of the shoot. It has taught me a lot about myself and who I am as a person as well as increased my self-confidence.

My sexiest feature?
I would say my butt is my best feature because I'm more blessed in the back than I am up top!

To my dear
Rick -
Thank you for always
being there for me.
You are my best
friend and I
love you ☺
I am and will
always be there
for you!

- Love
Rebekah
